WWW.BOOKBAZ.IR

Electrocoagulation, 1:228, 2:1053, 8:5167

Electrocochleography (EcoG), 5:3266

Electroconvulsive therapy (ECT), 3:**1692–1694**
- amnesia from, 1:201
- bipolar disorder, 2:711
- catatonia, 2:997
- catecholamine levels, 2:1000
- depressive disorders, 3:1499, 3:1694
- mood disorders, 5:3397
- precautions, 3:1693–3:1694
- schizoaffective disorder, 7:4487
- side effects, 3:1499, 3:1693

Electrocution (accidental). *See* Electric shock injuries

Electrocution (capital punishment), 3:1682

Electrodermal tests, 1:154

Electrodes
- bioelectric therapy, 2:697, 2:698, 2:699
- cochlear implants, 2:1205
- impedance phlebography, 4:2662
- implantable cardioverter-defibrillator, 4:2665
- MUGA scan, 5:3424

Electrodesiccation
- anal warts, 1:228
- basal cell carcinoma, 1:643, 7:4644
- birthmarks, 2:718
- skin lesions, 7:4653
- squamous cell carcinoma, 7:4771

Electroencephalography (EEG), 3:**1694–1696,** 3:*1695*
- Alzheimer's disease, 1:182
- barbiturate-induced coma, 1:628
- beriberi, 1:674
- biofeedback, 2:701, 2:702
- brain tumors, 2:830
- cerebral aneurysm, 2:1026
- congenital brain defects, 2:1286
- Creutzfeldt-Jakob disease, 2:1382
- delirium, 3:1465
- encephalitis, 3:1741
- epilepsy, 3:1695, 3:1696, 3:1817–3:1818, 3:1819
- head injuries, 4:2278
- labyrinthitis, 5:2894
- liver encephalopathy, 5:3046
- multiple personality disorder, 5:3440
- neurofibromatosis, 6:3580
- polysomnography, 6:4076
- seizure disorders, 7:4520
- spinal fusion, 7:4744
- stroke, 7:4839
- subacute sclerosing panencephalitis, 7:4847
- traumatic brain injury, 8:5141
- vegetative state, 8:5307

Electrolysis, 4:2450

Electrolyte balance. *See also* Overhydration
- anorexia nervosa, 1:284
- colonic irrigation, 2:1228
- dehydration, 1:376
- gastroenteritis, 4:2102
- precautions, 3:1701–3:1702, 3:1774, 6:3749
- vomiting, 8:5385

Electrolyte disorders, 3:**1696–1700**
- causes, 3:1696–3:1699, 3:1701–3:1702, 3:1705–3:1707
  - bulimia nervosa, 2:888
  - corticosteroids, 2:1358
  - heat disorders, 4:2343
  - malabsorption syndrome, 5:3165, 5:3167
  - malnutrition, 5:3184
  - ulcerative colitis, 2:1218
  - whole-bowel irrigation, 8:5425
- diagnosis, 3:1699, 3:1705–3:1708
- Fanconi's syndrome, 3:1919–3:1921
- liver encephalopathy from, 5:3045, 5:3046
- muscle spasms and cramps from, 5:3459
- symptoms, 3:1696–3:1699, 3:1706–3:1707
- treatment, 3:1699, 3:1700–3:1705

Electrolyte injections, 3:1702–3:1703, 3:1704–3:1705

Electrolyte replacement
- children, 3:1702, 3:1703–3:1704, 3:1705
- cholera, 2:1138, 2:1139
- colostomy, 2:1238
- constipation, 2:1314
- cyclic vomiting syndrome, 2:1413
- formula, 3:2025, 3:2026
- heat disorders, 4:2344
- hemolytic-uremic syndrome, 4:2372
- hyperemesis gravidarum, 4:2540
- hyperglycemia, 4:2544
- intravenous rehydration, 4:2779
- malabsorption syndrome, 5:3167
- Mallory-Weiss syndrome, 5:3181
- muscle spasms and cramps, 5:3459
- mushroom poisoning, 5:3469
- noroviruses, 6:3620
- rotavirus infections, 7:4438
- starvation, 7:4784
- total parenteral nutrition (TPN), 3:1703, 3:1704, 8:5067

Electrolyte supplements, 3:**1700–1705**

Electrolyte tests, 3:**1705–1708**
- chemistry screen, 2:1071, 2:1072
- congestive heart failure, 2:1303
- craniopharyngioma, 2:1371
- insulin resistance, 4:2737
- kidney failure, 1:512
- malabsorption syndrome, 5:3166

Electrolytes
- calcium, 2:904
- dehydration, 3:1460–3:1461, 3:1701
- delirium, 3:1464
- negatively charged, 3:1700, 3:1705, 3:1707–3:1708
- positively charged, 3:1700, 3:1705, 3:1706–3:1707
- precautions, 3:1701–3:1702, 3:1774
- role, 3:1696, 3:1700, 3:1701
- sodium, 7:4709

Electromagnetic fields, 4:2303, 7:4454

Electromagnetic stimulation, bone. *See* Magnetic field therapy

Electromyography (EMG), 3:**1708–1710**
- alcohol-related neurologic disease, 1:130
- amyotrophic lateral sclerosis, 1:216
- autoimmune disorders, 1:598
- Bell's palsy, 1:662
- biofeedback, 2:701, 2:702
- carpal tunnel syndrome, 2:989
- cervical disk disease, 2:1049
- cervical spondylosis, 2:1051
- Charcot Marie Tooth disease, 2:1067
- dermatomyositis, 3:1505
- diabetic neuropathy, 3:1532
- external sphincter, 3:1877–3:1878
- herniated disk, 4:2428
- muscle spasms and cramps, 5:3459
- muscular dystrophy, 5:3465
- myasthenia gravis, 5:3478
- myopathies, 5:3500
- myositis, 5:3508
- myotonic dystrophy, 5:3512
- neuromuscular disorders, 7:4601
- numbness and tingling, 6:3626
- ophthalmoplegia, 6:3691
- paralysis, 6:3835
- peripheral neuropathy, 6:3919
- polymyositis, 6:4074
- precautions, 3:1709
- restless legs syndrome, 7:4363
- sciatica, 7:4495
- spinal stenosis, 7:4748
- torticollis, 8:5065

Electron microscopy, 5:3389, 6:3619

Electronic cigarettes. *See* E-cigarettes

Electronic Ear, 1:588

Electronic fetal monitoring, 3:*1710,* 3:**1710–1712**
